Title: Krakow Health Guide 2024

# Introduction

Health tourism is a phenomenon that combines prevention, treatment, and rehabilitation with relaxation. This type of tourism is becoming increasingly important due to the changing needs of contemporary societies. We are more mobile, live longer, and place greater importance on health.

Kraków – a city that attracts millions of visitors each year for business and cultural purposes – is also a unique center offering a wide range of health services. These are complementary elements to cultural tourism attractions, which increase guest satisfaction.

The [Kraków Health Guide](#) aims to help residents and tourists find practical information related to healthcare in Kraków. The guide will be useful both for those seeking a place for planned treatments or therapies, and in cases of urgent need for medical services.

In addition to its unique tourist brand, Krakow has much to offer visitors coming for health purposes through:

- high-quality services provided in medical facilities offering specialized treatment, including aesthetic, orthopedic, dental, and rehabilitation procedures,
- modern clinics and hospitals, equipped with specialized medical equipment, employing experienced doctors and highly reputed specialists,
- competitive prices for medical services compared to other countries, attracting international patients,
- accessibility for the elderly and those requiring special care.

In response to the [growing interest in health tourism](#), we have prepared the Kraków Health Guide, which includes:

- information about facilities offering medical services, highlighting unique and most sought-after products by visitors,
- a list of the most important places providing medical assistance in urgent situations.

**Information about medical tourism in Kraków  
can also be found on the website:  
[www.turystykamedyczna.krakow.pl](http://www.turystykamedyczna.krakow.pl)**

For many years, foreign visitors have eagerly taken advantage of Kraków's medical offerings. Some facilities have extensive experience in catering to international guests and successfully compete in the global medical tourism market. Patients are primarily drawn to Kraków by the high quality of services, often combined with competitive pricing.

Below, you will find examples of unique services provided by facilities that confirmed their experience in hosting foreign guests in a 2024 survey.

Additionally, there is a list of entities with websites translated into at least one foreign language, indicating a maximum of three language versions.

## Hospitals

### J. Dietl Specialist Hospital in Krakow

al. Marszałka F. Focha 33  
30-119 Kraków  
+48 12 68 76 200  
[szpitaldietla.pl](http://szpitaldietla.pl)

The hospital provides medical services in the fields of internal medicine, non-invasive cardiology, neurology, rheumatology and immunology, planned orthopedic procedures, and rehabilitation. Located in the heart of Kraków, the hospital boasts an Emergency Department where patients can receive medical assistance in case of sudden illnesses. It serves patients from all over the world.

### Szpital na Klinach NEO HOSPITAL

st. J. Kostrzewskiego 47  
30-437 Kraków  
+48 12 267 40 64  
[szpitalnaklinach.pl](http://szpitalnaklinach.pl)

The most popular procedures chosen by international patients are bariatric and gynecological surgeries. In the field of bariatrics, the hospital specializes in minimally invasive operations such as sleeve gastrectomy and gastric bypass, designed for individuals struggling with obesity. In gynecology, procedures focus on treating uterine fibroids, polyps, endometriosis, and ovarian cysts. All these surgeries are performed using minimally invasive methods, which shorten recovery time and minimize the risk of complications. The hospital serves patients from abroad, primarily from the United Kingdom and Ireland.

# St. Raphael's Hospital

st. A. Bochenka 12  
30-693 Kraków  
+48 12 629 88 00  
[swrafal.pl](http://swrafal.pl)

St. Raphael Hospital in Kraków is a part of the Scanmed Group. The hospital operates over 40 specialist outpatient clinics, as well as laboratories for Haemodynamics, Interventional Radiology and Electrophysiology, magnetic resonance imaging (MRI), mammography, computed tomography (CT), X-ray, EEG, and endoscopy. The facility offers comprehensive health assessments and treatments, including in the fields of neurosurgery, ophthalmology, and orthopaedics, such as:

- arthroscopies of all joints,
- total joint replacements (knee, hip, elbow, shoulder, or ankle endoprosthesis),
- minimally invasive microscopic discectomies.

**5 Wojskowy Szpital Kliniczny w Krakowie**  
ul. Wrocławska 1-3

30-663 Kraków  
[szpitalzrowia.pl](http://szpitalzrowia.pl)

# Dentistry

## BJB Stomatologia Estetyczna

st. Lubicz 24  
31-503 Kraków  
+48 12 430-34-63  
[bjb.net.pl](http://bjb.net.pl)

A dental clinic offering a wide range of treatments. They provide a unique one-day service for inserting full-ceramic crowns using the CEREC system, as well as full-ceramic bridges. For 25 years, they have also been performing dental implants and implant prosthetics using Dentsply Sirona's premium systems.

## INDEXMEDICA

st. K. Czapińskiego 2  
30-048 Kraków  
+48 668 66 33 99  
[indexmedica.com.pl](http://indexmedica.com.pl)

A dental clinic, one of the few in Poland, offering dental treatments along with free accommodation in a 4-star hotel. Among international patients, the most popular procedure is implant insertion. This procedure can be well planned and easily carried out in 2 to 3 stages in Kraków.

## Magnadent

st. Jasnogórska 23  
31-358 Kraków  
+48 727 55 66 00  
[magnadent.pl](http://magnadent.pl)

A dental clinic offering treatments in the fields of conservative dentistry, endodontics, prosthetics, periodontics, surgery, and implantology. The clinic has many years of experience in treating international patients with highly specialized root canal treatment under a microscope.

## Askdentist

st. E. Plater 2/3  
30-009 Kraków  
+ 48 570 082 587  
[askdentist.pl](http://askdentist.pl)

## **Studio Stomatologii Estetycznej**

st. S. Batorego 6/2  
31-135 Kraków  
+48 882 088 736  
[studiose.med.pl](http://studiose.med.pl)

The clinic offers comprehensive dental care, specializing in the following services:

- Aesthetics and Bonding – improving the appearance of teeth using modern aesthetic techniques.
- Prosthetics – comprehensive prosthetic reconstructions using advanced technologies.
- Orthodontics – modern Invisalign braces that discreetly and effectively correct dental malocclusions.
- Implantology – precise filling of even the most difficult dental gaps using high-quality implants and bone regeneration.

The clinic serves patients from all over the world, providing services in English, Italian, and German.

## **Ars Dentistica**

st. Zamknięta 10  
30-554 Kraków  
[arsdentistica.com](http://arsdentistica.com)

A clinic specializing in laser dentistry, as well as orthodontics and selected procedures in implantology and prosthetics, including bonding. The clinic uses Fotona lasers for laser therapy, a Kaps microscope for endodontic treatment, and the Osstem system for implantology. The facility offers a full range of dental services.

[rugpoli.pl](http://rugpoli.pl)

**Sportoklinik**  
st. J. Kałuży 1  
30-111 Kraków  
[sportoklinik.pl](http://sportoklinik.pl)

# Other (Diagnostics, Multispecialty)

## Acernis clinics

al. Pokoju 4  
31-548 Kraków  
+48 502 810 144  
[acernis.pl](http://acernis.pl)

A multispecialty clinic offering assistance in urgent situations. The clinic provides quick doctor visits in the outpatient department, house calls, including hotel visits within Kraków, injections, dressings, EKG, and suture removal. All doctors speak English, and there are also doctors who speak German, French, and Ukrainian. The clinic regularly serves international patients.

## Arbovita International Health & Beauty Group

st. Podskale 18/LU6  
30-522 Kraków  
+48 690 542 708  
[arbovitaclinic.com](http://arbovitaclinic.com)

A multidisciplinary private clinic also offering aesthetic medicine procedures. Since 2025, they have been offering endoscopic examinations of the nose, throat, and ear, allowing for precise diagnosis and treatment of ENT problems. A new service is blepharoplasty, a procedure that improves the aesthetics of the eye area, and videocolposcopy – an innovative gynecological examination that enables detailed diagnostics and assessment of pathological changes. They have experience in serving foreign patients, especially Ukrainian and Russian speakers, and from other countries, mainly Germany and the United Kingdom.

## Linden Medical Center

st. Lipska 8  
31-721 Kraków  
+48 660 463 464  
[cmlinden.pl](http://cmlinden.pl)

A multispecialty clinic offering medical consultations and detailed diagnostics. As a Clinical Research Center, they specialize in rare diseases. They actively run about 20 drug programs and offer participation in clinical trials.

## Orthodontics

st. Masarska 9/2  
31-534 Kraków  
+48 602 421 938  
[ortodontica.pl](http://ortodontica.pl)

An orthodontic clinic specializing in:

- Comprehensive treatment of functional disorders requiring close cooperation between a prosthodontist and an orthodontist,
- Treatment of genetic defects in collaboration with a maxillofacial surgeon.

As one of the few centers in Poland, they offer treatment for obstructive sleep apnea using intraoral devices.

# Unique Products

## The “Wieliczka” Salt Mine Health Resort

Park Kingi 1  
32-020 Wieliczka  
+48 602 421 938  
[uzdrowisko.kopalnia.pl](http://uzdrowisko.kopalnia.pl)

### MEDICAL STAYS AT THE „WIELICZKA” SALT MINE HEALTH RESORT

Medical stays at the „Wieliczka” Salt Mine Health Resort offer a unique program aimed at individuals suffering from chronic respiratory diseases, including asthma, allergies, and recurrent infections of the nose, throat, larynx, or sinuses. The therapy involves a series of descents into the underground

salt chambers, where the microclimate has exceptional health benefits—clean, allergen-free air rich in microelements promotes the regeneration and cleansing of the respiratory tract.

The stay program includes comprehensive pulmonary rehabilitation tailored to the individual needs of patients with chronic lung diseases. The therapy offers:

- **Breathing exercises**, including techniques for prolonged exhalation, resistance exercises to strengthen respiratory muscles, and increase chest flexibility,
- **Endurance and strength training** in the mine's microclimate, which helps improve respiratory efficiency and exercise tolerance,
- **Health education** on the prevention and proper care of the respiratory system.

Such comprehensive pulmonary rehabilitation helps improve the quality of life for patients, reduces the severity of symptoms, and decreases the frequency of exacerbations. The program is offered both under the National Health Fund (NFZ) contract and on a paid basis. The descents are conducted from Monday to Friday for 3-5 hours daily.

### HEALTHY SLEEP

Healthy Sleep is a unique offer for an overnight stay in the underground health resort. Sleep in a specific, therapeutic microclimate, free from allergens and pollutants, brings relief especially to allergy sufferers and strengthens the overall immunity of the body.

# Comprehensive Medical Information for Tourists Needing Urgent Medical Support

If you need urgent medical assistance during your stay in Kraków, here are the **emergency contact numbers**:

## Emergency Numbers

- 112** - Emergency Number
- 989** - National Health Fund
- 999** - Ambulance Service
- 997** - Police
- 998** - Fire Department
- 986** - Municipal Guard

If you can make it to a hospital emergency department on your own, here is a list of emergency departments in Kraków:

## **Places Providing Assistance in Case of Life-Threatening Emergencies**

### **ED - Emergency Department (SOR)**

Hospital departments where life is saved and assistance is provided in case of a life-threatening emergency.

**There are 4 emergency departments (ED) operating in Kraków.**

None of the emergency departments (ED) have a telephone menu option in English, although some staff members speak English.

## Night and Holiday Health Care

Night and holiday health care services are provided within the scope of primary health care from Monday to Friday from 6:00 PM to 8:00 AM the next day, and 24 hours on public holidays. In the event of sudden illness or sudden deterioration of health, patients can seek assistance at any night and holiday health care point, regardless of where they live or which primary health care physician/nurse they are registered with.

[www.dental-krakow.com](http://www.dental-krakow.com), st. Oboźna 4/1, 30-011 Kraków, tel. 532 776 892

**The list can also be found on the following website:**

[www.nfz-krakow.pl](http://www.nfz-krakow.pl)

## **Emergency Pharmacies**

Emergency pharmacies provide access to medications at night and on holidays. There is no collective list of on-call pharmacies, so you need to search for the current list for a specific city using the keyword: „emergency pharmacy in - city name.” In some cities, there are pharmacies open 24 hours a day, 7 days a week. At night, patients do not enter the pharmacy; medications are dispensed through a special window.
