District Building Control Inspectorate in Kraków – City District

DEMOLITION NOTICE

Regarding the extended building at ul. Centralna73B, Kraków

Dear Residents,

To help ensure your safety and keep you fully informed about the legal and factual status of the building at 73B Centralna Street, we would like to inform you that:

- The decision ordering the demolition of part of the building (the five additional above-ground floors) is final and is currently being enforced. The decision was issued as the investor had violated building regulations by adding five residential floors to an existing five-storey apartment building (unauthorised extension).
- The building has already been disconnected from the municipal district heating network.
- The electricity and water supplies are scheduled to be disconnected simultaneously with the demolition of the additional floors.

Please take the above information into account when making decisions about using or occupying premises in this building.
